

Technology Engineering Degrees

Technology Engineering Degrees	
1	Environmental engineering - Waste recycling
2	Environmental engineering - Pollution control
3	Civil engineering - Urban transport
4	Civil engineering– Road construction
5	Civil engineering – Building construction
6	Architecture engineering - Design and renovation
7	Civil engineering – Surveying
8	Welding inspection engineering
9	Welding engineering
10	Metallurgy engineering – Metal melting
11	Manufacturing and production engineering – Molding
12	ICT engineering - Telecommunication systems
13	ICT engineering – data
14	ICT engineering - Wireless communication
15	ICT engineering - Optical communication
16	Telecommunications engineering - Fixed network switches
17	Mining engineering – Underground excavation
18	Metallic minerals processing engineering
19	Ceramic engineering - Tiles and porcelain
20	Industrial electronics engineering
21	Control engineering - Instrumentation
22	Control engineering - Processing
23	Avionics engineering
24	Aircraft mechanics engineering
25	Aviation engineering - Pilot (CPL& IR)
26	Media communications engineering
27	Information technology engineering (IT) – Information security
28	Information technology engineering (IT) - Web programming
29	Information technology engineering (IT) - E-commerce
30	Information technology engineering (IT) - Municipality computer services
31	Information technology engineering (IT) - Web design
32	Information technology engineering (IT) - Information technology
33	Computer network technology engineering

Technology Engineering Degrees

34	Polymer engineering– Paint making
35	Food industry engineering - Flour industry
36	Food industry engineering - Edible oil industry
37	Food industry engineering - Confectionery and chocolate industry
38	Chemical industry engineering
39	Food industry engineering -Sugar cube industry
40	Food industry engineering– Canned fruit and food
41	Elevators and escalators technology engineering
42	Mechanical engineering - Heating and cooling installations
43	Port equipment engineering
44	Industrial design and technical drawing engineering
45	Logistics and automobile supply chain engineering
46	Mechanical engineering – Machinery
47	Mechatronics engineering - Computer numerical control (CNC)
48	Auto mechanics engineering
49	Mechanical engineering – Road construction and maintenance machinery
50	Tire and rubber engineering
51	Tobacco industry engineering
52	Metal deformation engineering
53	Subway electrical engineering
54	Subway telecommunication engineering
55	Subway signaling and control engineering
56	Subway and railway underground structures engineering
57	Subway safety engineering
58	Meteorology engineering
59	Subway mechanical engineering
60	Civil engineering - Railway lines and buildings
61	Railway operation engineering
62	Food science engineering - Paste products
63	Cement plants exploitation engineering
64	Architecture engineering - Designing sport spaces and buildings
65	Road maintenance engineering
66	Surface water resources engineering
67	Groundwater resources engineering

Technology Engineering Degrees

68	Power transmission network engineering
69	Power distribution networks engineering
70	Power plants exploitation engineering
71	Information engineering –Media
72	Information technology engineering - Sports analysis
73	Textile technology engineering– Leather
74	Civil engineering - Dam and network
75	Civil engineering - Water and wastewater
76	Medical laboratory diagnostic equipment engineering
77	Operating room medical equipment engineering
